Graphic Designer
Freelance Designer | Remote | 2023 – Present

Dove into freelance design across branding, layout, and front-end visuals, crafting work that solves real client needs.

- Designed responsive websites in Figma and made handoffs tight for devs.
- Created brand visuals that hit client goals while building a stronger portfolio.
- Applied design principles (hierarchy, contrast, alignment) to solve real-world design problems.
- Designed branding, layouts, and digital content for small businesses and startups.
- Worked on multilput take in cludiong Social mieda content diesgn web deisgn thumnaile deisgn packaging diesgn

Web Designer & Developer Collaboration
Khajool.clothing Website – Freelance

Designed the full Khajool.clothing website in Figma, handled layout & branding visuals, responsive design, and Worked closely with the client and developer, adapting the design to meet technical needs while keeping the look on-brand and in style. I learned how to maintain quality through handoff.

- Designed a full responsive website in Figma. And collaborated with a senior designer.
- Handled layout, responsive design, and brand visuals to match client identity.
- Worked closely with developers to adapt design for technical requirements.
- Outcome: Delivered a bold, on-brand design that represented the client professionally online. And boosted engagement

UI/Ux Designer

UI/UX Designer | Ovowebsolutions (Remote) | 2022 – 2023

Took e-commerce UI from concept to live sites, blending brand identity with usability.

- Designed e-commerce websites for clients, focusing on usability and brand identity.
- Led UI design in Figma and supported front-end developers (Shopify, WordPress, WooCommerce).
- Assisted in HTML/CSS adjustments to ensure smooth handoff and accurate builds.
- Balanced creative visuals with site performance and business aims.

Graphic Designer

Graphic Designer | Orangepeel Studios (Remote) | 2019 – 2022

Started young and grew fast — landing pages, social assets, and client work under tight deadlines.

- Joined as a junior/intern and became a core member of a small startup team.
- Designed landing pages, social media content, and brand visuals in Figma, and XD. and got real client feedback early on.
- Worked directly with clients, learning professional communication and project management.
- Learned layout, spacing, typography in real-world workflows, not just theory.

About Me

Fulltime Remote Graphic Designer

I've been designing since I was a kid I'd copy my dad's briefs and try to beat his ideas. That curiosity turned into real work with startups and freelancing. I blend creativity with hands-on know-how in web and graphic design. Excited to bring my energy and skills into a junior design team where I can learn fast and deliver things that matter.
